

**Installation Instructions
for Console Mounted Tables**

- 1. Slide the hinge pin through one of the hinge straps on the table and through one of the white aluminum console brackets and then through the other hinge strap.**
- 2. Hold the table to the console at a height that is appropriate for your cockpit and seats. Mark the location of the console bracket.**
- 3. Drill and tap (10-32) the consol and mount the bracket with the flat head machine screws provided.**
- 4. Using the hinge pin attach the table to the pedestal. Attach the other white aluminum console bracket to the lower end of the wire form. Holding the table level mark the location of the lower bracket on the pedestal.**
- 5. Drill and tap (10-32) the consol and mount the bracket with the flat head machine screws provided.**
