

# Pedestal Monitor 29106

**Pump Division**

## *Easily Bill for Electric and Water*

### General Description

*Edson's Pedestal Monitor will remotely monitor individual power and water consumption by all pedestals throughout your marina. You can now charge for usage by individual slips and have it reported wirelessly to the office. No need to perform individual "meter readings".*

### Design Features

- Easy installation on existing pedestals
- Wireless RF Communication
- No Data Plan Required
- Configured to "talk" to most billing software.
- Monitors all voltages 1ph or 3ph
- Sealed enclosure for harsh environments
- 3 year limited warranty

### Monitoring System

#### **29106 Power Pedestal Data Logger**

- LCD Display
- Displays kWh usage
- Displays water usage (gallons)\*\*
- Wirelessly reports using RF signal

#### **29107 Power Pedestal Monitor**

- Economical alternative to the 29106
- Wirelessly reports using RF

#### **29110 Optional LCD Display**

#### **29111 Optional Water Flow Meter**

29106 Power Pedestal Data Logger  
(Includes Software)

29107 Power Pedestal Monitor

\*\* Pedestal requires additional flow meter installed on the water outlet at extra cost.
