

The Edson Vision II Pedestal

Edson's new Vision Series™ Pedestal is ideal for retrofit installations on older boats as an alternative to adding a new pedestal guard and instrument housing with associated wire routing. The replaceable faceplate allows the mounting of a large LCD display or several smaller instruments. The extended compass mounting area allows for a clean installation of up to a 4" card compass, and the integrated Single-Lever Engine control fits flush with cables running internally through the pedestal column. All in a roomy, yet compact design. Plus, it takes up less cockpit space than a classic pedestal with guard pipe and keeps installation time to a minimum.

Updating Your Cockpit?

Vision II vs. Classic

Edson's new compact Vision II Pedestal may be the more economical alternative. When replacing a Classic Pedestal and adding a Radar or Chartplotter Display, consider the advantages of Edson's new Vision II Pedestal.

- Labor savings on the reinstallation
- Fewer parts to install ...easier wire runs.
- Gets the instrumentation down from the "in your face" position.

- Smaller footprint than Classic Pedestal with Guard
- Integrated Single-lever Engine Control
- Smooth, curved base.
- Integrated Guard Pipe - fewer holes in the cockpit sole.

Compare The Costs

For an apples - to apples comparison, compare these two typical installation choices, each providing a Pedestal Guard, Single Lever Engine Control, Chartplotter/Radar mounting location, Compass mounting location and Thru-Shaft Wheel Brake.

Classic

Edson #336 Classic Pedestal w/ Brake	\$1,554.00
Side Engine Control w/ Guard	\$1,206.00
Vision Series Radar Pod w/ Guard Mount (10x14)	\$622.00
Adjustable Crossed Wire Idler	\$410.00
TOTAL	\$3,792.00

Vision II

Edson #476 Vision II Pedestal	\$2,336.00
w/ Integrated Engine Control, Brake, Guard, Chartplotter / Radar Mounting location	
Adjustable Crossed Wire Idler	\$410.00
TOTAL	\$2,747.00
